Look forward to an entertaining and exciting visit to Bremen's lively world of experience – the "Viertel" (1/4), as it is abbreviated and referred to by its residents and visitors. Coming from the city's market-place, you will enter this cultural quarter passing Bremen's art exhibition hall (Kunsthalle) and the famous Goethe-Theatre. There is no other area in town where you can find so many spots of young and creative art neighbouring places of high culture.

Countless attractive offers invite to strolling and looking around in the stores. Some of them are flashy and cool, others rather chic and noble, but all of them are worth seeing and worth visiting – and especially worth a purchase.

The Viertel represents Bremen's most colourful mixture, its creative and communicative centre. Especially, when **samba carnival**, **Breminale**, **Viertelfest** and **Christmas shopping** attract those who love and enjoy something special.

Live your way – shop your way

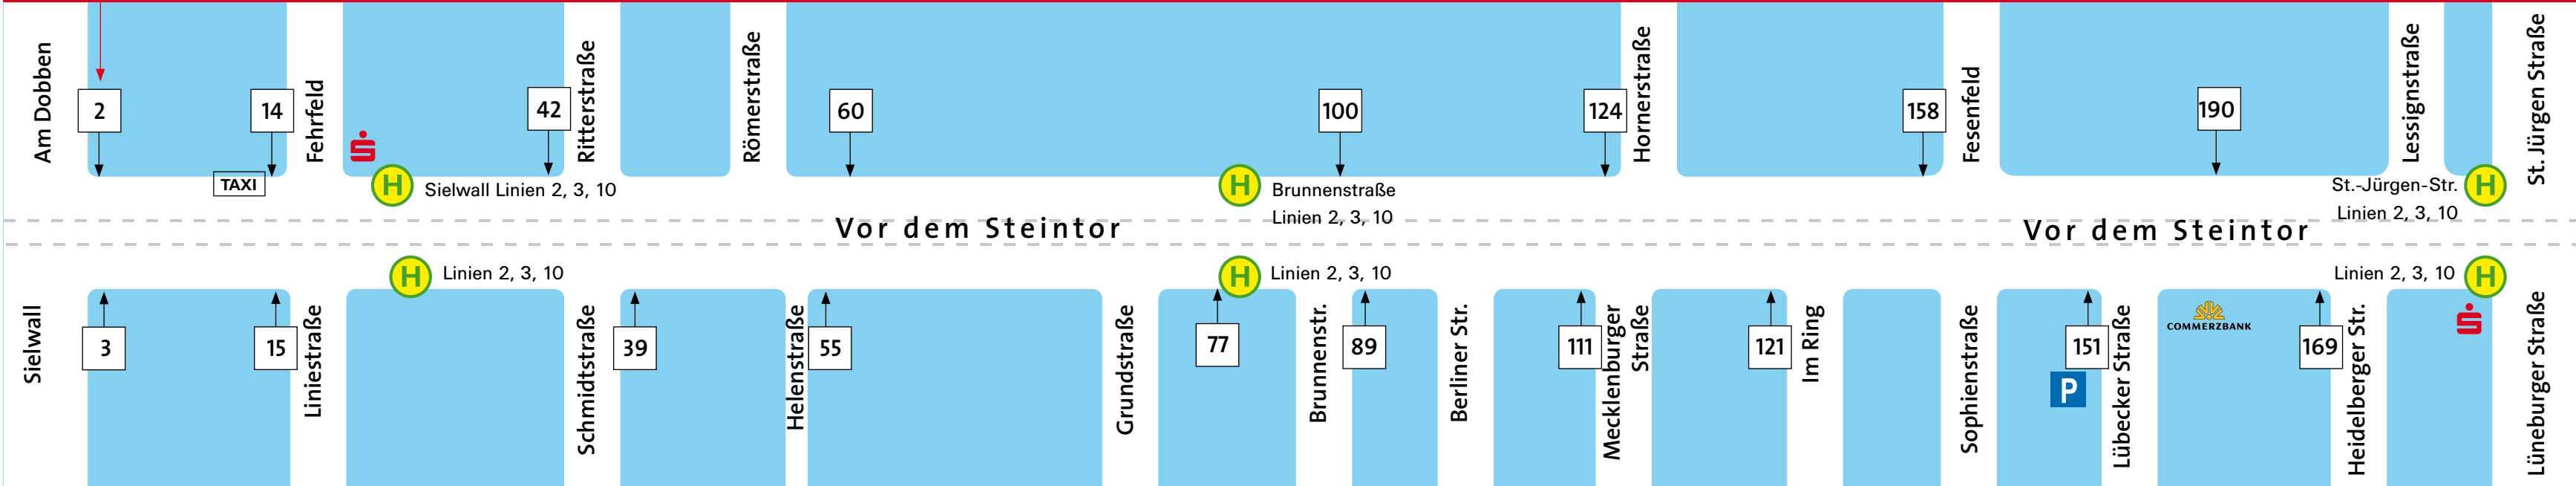

Dear visitors, customers, guests and residents of the Viertel,

In 2010 it's going to be nice in the Viertel again.
